

## PRESS RELEASE

### **CROCCANTE**

The search for delicacy and harmony in one of the most trending decorative typologies has guided Arcana Cerámica when developing its Croccante collection. It has led them to explore a decorative coherence where the small details make the Croccante porcelain tile series and the Topping wall tile series, a varied, unique and inseparable whole. Their subtle graphic and chromatic nuances create a soft aesthetic unity for warm spaces with a sensitive, cheerful and welcoming personality.

Arcana presents the Croccante model as R10 rectified porcelain tiles in sizes 120x120, 60x120 and 80x80 cm and as R10 non-rectified porcelain tiles in size 60x60 cm. They are all available in 5 colours: Tutti frutti, Sésamo, Avellana, Nuez, Arándano and Menta, including the special pieces and the 30x30 cm Croccante Mosaic in all five colours.

As matching white body rectified wall tiles in size 32x99 cm, Arcana Cerámica offers the Topping model with discreet graphics, a light texture and a matte finish with a pleasant touch in 5 colours: Tutti frutti, Sésamo, Avellana, Nuez, Arándano and Menta; plus the Topping-R Nata wall tile designed to combine with all of them, accompanied by the Wafer-R Nata relief tile and a special piece of great craftsmanship, the Cialda-R Macedonia Décor.

Croccante is the result of the restless and innovative spirit of Arcana Cerámica, always looking to find the best design proposals for their customers.
